The Contractor shall promptly report damage to or malfunction of any sprinkler system to the CO.

(b) The Government will provide all other required maintenance to installed sprinkler systems due to normal wear and tear, to include time clocks, valve systems, and underground piping up to, but not including the sprinkler riser connection and sprinkler heads. SECTION II

52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Award will be made to a single offeror whose proposal provides the best overall benefit to the Government with appropriate consideration given to the evaluation factors stated below. All proposals will be evaluated by a team of Government personnel to determine the extent to which each offeror demonstrates a clear understanding of the requirements of the RFQ. The offeror must submit a proposal that completely addresses all evaluation areas specifically identifying how each proposed contractual requirement will be met. The evaluation team will rate each proposal strictly in accordance with its content in relation to the specifications. The evaluation panel will not assume that performance will include areas not specified in the offeror's written proposal.

The following significant evaluation factors are shown in descending order of importance.

- a. Price
- b. Past Performance. See attached questionnaire to be sent to Bill Turner from previous customers.
- c. Business Plan (including a list of equipment)

*Price is slightly more important than previous performance and the business plan.

EVALUATION FACTORS

(a). Factor 1: Price— The following will be evaluated for all offerors. All factors are equally important.

- (1) Proposed cost for each item based on the work to be performed, including all option CLINS.

(b). Factor 2: Past Performance—The following will be evaluated for all offerors. All sub-factors are equally important.

- (1) Evaluations from at least four previous customers based on responses from attached questionnaire.

(c). Factor 3: Business Plan- The following will be evaluated for all offerors.

Offeror's that fail to provide previous performance evaluations will receive a neutral evaluation for this factor.

A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

II - 1 CONTRACT AWARD

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, cost or price and other factors, specified elsewhere in this solicitation, considered.

(b) The Government may (1) reject any or all offers if such action is in the public interest, (2) accept other than the lowest offer, and (3) waive informalities and minor irregularities in offers received.

(c) The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

(d) The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(e) A written award or acceptance of offer mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer shall result in a binding contract without further action by either party. Before the offer's specified expiration the Government may accept an offer (or part of an offer, as provided for in paragraph (d) above), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award. Negotiations conducted after receipt of an offer do not constitute a rejection or counteroffer by the Government.

(f) Neither financial data submitted with an offer, nor representations concerning financial, will form a part of the resulting contract. However, if the resulting contract contains a clause providing for price reduction for defective cost or pricing data the contract price will be subject to reduction if cost or price data furnished is incomplete, inaccurate, or not current.

INVOICING PROCEDURES ELECTRONIC (USMC May 2004)

In compliance with DFARS 252.232-7003, "Electronic Submission of Payment Request (March 2003)", the United States Marine Corps (USMC) utilizes WAWF-RA to electronically process vendor request for payment. The contractor is required to utilize this system when processing invoices and receiving reports under this contract.

The contractor shall (i) ensure an Electronic Business Point of Contract is designated in Central Contractor Registration at <http://www.ccr.gov> and (ii) register to use WAWF-RA at the <https://wawf.eb.mil>, within ten (10) days after award of the contract or modification incorporating WAWF-RA into the contract. Step by step procedures to register are available at the <https://wawf.eb.mil>

The USMC WAWF-RA point of contact for this contract is Mr. Andre Vasseur who can be reached at (816) 843-3705 or email: vasseurad@mcsa.usmc.mil. The contractor is directed to use the "Combo" or "2-in-1" (Choose the appropriate format based on the following: Combo is used for goods or any combination of goods and services. 2-in-1 is used for services only contracts. In most cases these formats are the appropriate choices and the USMC recommended method. However, particular situations may require different WAWF-RA document types. When entering the invoice into WAWF-RA enter in the following fields these DoDAAC or DoDAAC extensions:

"Issue by DoDAAC" field enter M67386
 "Admin DoDAAC" field enter M67386
 "Payment DoDAAC" field enter M67443
 "Ship to Code/ EXT" field enter in M68522 or M67386
 "Inspect By DoDAAC/ EXT" fields "Leave blank"
 "LPO DoDAAC/ EXT" fields enter "Leave blank"

In some situations WAWF-RA system will pre-populate the "Issue By DoDAAC", "Admin DoDAAC" and "Payment DoDAAC". Contractor shall verify these DoDAACs automatically entered by the WAWF-RA system match the above information. If these DoDAACs did not match then the contractor shall correct the field(s) and notify the contracting officer of the discrepancy (ies). Step by step WAWF-RA invoicing procedures for "Combo" or "2-in-1" are available at USMC paperless site

<http://www.marcorsyscom.usmc.mil/sites/pa/> under "Vendor Interface" section. On the Vendor interface page click on "WAWF-RA" header at the top of the page. Under downloads on the WAWF-RA page that appears click the appropriate document either "Combo" or "2 in 1" to download the instructions.

Before closing out of an invoice session in WAWF-RA but after submitting your document or documents, the contractor will be prompted to send additional email notifications. Contractor shall click on "Send More Email Notification" on the page that appears. Add the acceptor's/receiver's email address in the first email address block and add any other additional email addresses desired in the following blocks. This additional notification to the

government is important to ensure the acceptor/receiver is aware that the invoice documents have been submitted into the WAWF-RA system.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation) and computes a proposed rate).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title), a Federal grade equivalency (FGE) for each proposed classification), job description), and rationale for proposed wage rate), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
